Applicants' Amendment filed February 13, 2008 (and also filed March 14, 2008 after a Non-Compliance Communication) is acknowledged. Claims 1, 3-6 and 9-16 remain under consideration.

Declarations under 37 CFR § 1.132 by Achim Schaffler, Ph.D., and Hiltrud Lindenblatt, pharmacist, filed February 13, 2008 are further acknowledged.

Applicants' arguments have been fully considered and are persuasive. Rejections not reiterated from previous Office Actions are hereby withdrawn. The following objection and rejection constitute the only objection and rejection presently applied to the instant claims.

Claim 6 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicants are required to cancel the claim, or amend the claim to place the claim in proper dependent form, or rewrite the claim in independent form. Subsequent to the amendment to claim 1, claim 6 does not further limit the subject matter of claim 1.

Claims 1, 3-6 and 9-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicants regard as the invention.

The recitation in claims 1, 9 and 10 "free of organic solvent residues" lacks clarity in that the metes and bounds of "residues" cannot be precisely determined. It is unclear what distinctions are contemplated between "free of organic solvent" and "free of organic solvent residues." On page 3 of the specification reference is made to preparation "without the use of organic solvents." There is no description of "residues."

Art Unit: 1614

Clarification is required.

No claim is allowed.
